

“AQUAFLOR delivers
a darn good return.”

AQUAFLOR[®]
(FLORFENICOL) TYPE A MEDICATED ARTICLE

“If our pond fish are converting at 2:1 and we take them off feed when we'd normally be feeding 5,000 pounds a day, that's 2,500 pounds a day we're losing in growth. AQUAFLOR works fast, which helps to cut our losses. More importantly, they stay on feed and keep growing.”*
