

“It’s a lot cheaper than
a pond full of dead fish.”

AQUAFLO[®]
(FLORFENICOL) TYPE A MEDICATED ARTICLE

“It used to be when our fish got sick, we’d take them off feed for a week to 10 days. Now we use AQUAFLO. It costs more, sure, but it works fast — you can usually see a difference in two days — and our fish stay on feed and keep growing.”*

Steve Henderson
