

“More than ever, good feed intake is really important.”

AQUAFLO[®]
(FLORFENICOL) TYPE A MEDICATED ARTICLE

“We can't afford to waste feed, nor can we afford to lose feeding days. When we use AQUAFLO[®], the fish stay on feed — and that's really important to us. If we can feed 100 pounds an acre for 10 extra days, that's another 800 to 1,000 pounds of fingerlings per acre.”*

Terry Kruse
