

“Within 3 days,
the fish stopped dying.”

AQUAFLO[®]
(FLORFENICOL) TYPE A MEDICATED ARTICLE

“It was remarkable. I started feeding AQUAFLO[®] and the fish took to it right away. Within three days I wasn't seeing any new sick fish. And after six days, all the white birds were gone. Once you miss a day of feeding, you can't make it up. With AQUAFLO[®], we can keep our fish on feed and stay profitable.”*
