

Get ready  
to reach  
new highs

**AQUAFLO<sup>®</sup>**  
(FLORFENICOL) TYPE A MEDICATED ARTICLE

This year even more fish farmers will scale new heights in performance and profitability. Will you be one of them?

Talk with your veterinarian, extension agent or feed supplier today about AQUAFLO<sup>®</sup> — the fast-acting, new-generation antibiotic that will take your fish health program to a whole new level.

It's safe and highly palatable, too.

NOW APPROVED FOR:

- Furunculosis and Coldwater disease in freshwater-reared salmonids<sup>1</sup>
- Enteric septicemia<sup>2</sup> (ESC) in catfish
- Columnaris in catfish using AQUAFLO<sup>®</sup>-CA1<sup>3</sup>
